

LUVION®

PRESTIGE TOUCH 2

Premium Digital Babymonitor

““Bigger and Better””

The Luvion Prestige Touch 2, just like it's predecessor, is equipped with a large 7" screen, but this time with an even higher resolution. On top of this is the Luvion Prestige Touch 2 packed with advanced features for added convenience, for example: remote controlled pan / tilt cameras, SD card recording and a split screen and quad screen possibility. This camera is an investment that grows with your family.
